

1. Why should I declare a major in social work?

A degree in social work prepares students for professional social work practice, a growing and dynamic profession in which you promote the well-being of individuals, groups, and communities. Social workers are employed by hospitals, schools, child welfare agencies, criminal justice settings, advocacy organizations, organizations that serve veterans and active duty military, mental health service providers, and more. The degree also provides an excellent foundation in problem-solving, communication, and inter-professional collaboration, skills which are valued by many professions and graduate degree programs.

- You must take a sequence in either history or literature (e.g. HY 101 & HY 102; any two lits).
- Taking two literatures and one history will allow you to more easily complete your humanities and fine arts requirements (e.g., any two literatures and HY 101 or any two literatures and HY 102).

- You must take Public Speaking (COM 123). This is a humanities class.

- If you had less than two years of foreign language in high school you should begin with a 101 class.
- If you had two years of foreign language in high school, please refer to the Undergraduate

Catalog for placement information or begin with a 101 class in another language.

- If you place into a 103 class, you are required to take only that class (only one semester).
- Many students choose Spanish because of the growing Spanish speaking population but others choose from the variety of language classes available.

5. How can I complete my science requirements?

- UA requires 8 credit hours of natural science, including a lab with each of the two classes.
- The School of Social Work requires human biology (BSC 108 or 109 or BSC 114/115, or BSC 116/117 or BSC 118 or BSC 120) as one of your natural sciences.

6. What math courses do I need to take and when?

- One core math class (Math 110, Math 112, or a higher-level math class).
- During orientation you may be informed that you need to complete Math 100 (and perhaps Math 005 as well) before taking a core math.
- You must be eligible for a core math before entering the professional program.
- You *should* complete Math 100 or a higher-numbered math course before taking statistics, which you *must* complete before enrolling in SW 420 and beginning your field placement.

7. What electives should I take?

- To complete your required 120 credit hours, you may take 11-15 hours of “free electives.” Free elective” means any university class of your choice.
- If you are a freshman you may want to consider a freshman seminar for a freshman elective.
- If you are having difficulty with classes, you may want to take some of the study help classes, such as BEP 110, NEW 122, or BCE 101.
- Some students choose to double major. If you choose to do so, your free electives should be taken in the second major subject area—discuss this with your advisor in the division of your other major.
- You may wish to declare a minor. If so, you should take the classes required for that minor. You need to check with an advisor in the department of study to determine requirements for a minor.
- In **addition** to your free electives, you must complete 6 hours of social work electives.
- Refer to the class schedule in *myBama* or the BSW Bulletin Board for social work electives offered in a given semester.

8. What courses are considered social work electives?

- 100-400 level courses that are not required are considered social work electives, with the exception of SW 101, SW 310 and SW 444.
